Subject: Traffic Light System Draft 2...Plus
Attachments: 2015-03-27 Master Primer CommentTracking Sheet - your name.xlsx; 2015-04-29 Traffic Light System Draft 2.docx

Hey Team,

Attached is a revision (Draft 2) to the complete Section 8 Traffic Light Systems. Thank you to all who contributed with drafting and commenting: **GREAT JOB.** The comments have been incorporated into the draft and it will be used by the StatesFirst Leadership team to begin to assemble the initial draft of the Induced Seismicity Primer. As you review, please note your comments in the attached spreadsheet but **DO NOT SUBMITT.** Save the spread sheet with the date of your review at the beginning and your last name at the end. The leadership team will get back to us with their thoughts of how best to integrate our section with the other sections in order to eliminate duplicity and help the overall flow of the document. That review process will take the next 2-4 weeks so hang tight. Also, Please do not distribute. The document is still a work in progress and is not ready for review outside our team.

Because we are at a lull in the action, I will be cancelling our every week conf call for the next 2 weeks. During the week of May 11th we will determine if we need a conf call for May 15th.

If you have not heard, I need to advise you that I will be stepping down as the Co-Chair of the Traffic Light System working group as my day time job has picked up. I will stay involved as a member of the working group and Ed Steele, will be stepping into the role of Co-Chair. I have worked with Ed for the past 3+ years as the issue of Induced seismicity has been developing and he is very knowledgeable on the topic and is a great leader.

Jeff Bull
